

GRAB DESIGN SHARE

Digital Signage

– made easy for everyone

Through Q-Play you create the best suited cloud based digital signage solution to help you increase engagement, efficiency, and sales.

The user-friendly editor makes it possible for you to grab any kind of content and design a digital sign that you would be proud to share with your most valuable audience.

1

Grab any content

Choose between our vast variety of apps that helps you grab any kind of information and create your very own digital signage solution. You can show pictures, videos, websites, keep your audience updated on traffic or/and the latest news and much much more.

2

Design and visualise your content

You don't have a graphic designer on hand? – No problem! With the intuitive and user friendly Q-Play interface you can easily design a beautiful and professional digital show that will be seen on all the screens you want.

3

Share your content with the world

Use one of our many design-options and share your designs exactly how, when, and where you want. Q-Play is a cloud based digital signage solution. Meaning that you can manage all of your content from your computer. – No matter how many screens your digital signage solution contains.

Who said a calendar is only for meetings?

At NordicScreen a calendar has endless possibilities and can contain any kind of data that can be categorized into time and place. So do you need a layout of your open loading ramps, your running production machines, or today's special in the canteen?

Meeting Room Displays

Optimize the use of your meeting rooms with Meeting Room Displays.

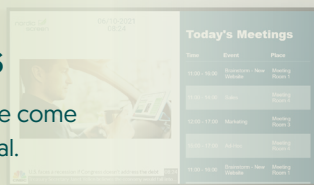

Check-In

Do you want to welcome your guests in style?
– Use a Check-In solution!

SignageViews

Make your digital signage come alive with data from Q-Cal.

EmbeddedViews

Have you ever wished that you could show a specific event from your calendar on your website?

Andreas Engkvist, Head of IT Operations @ Inpay

"Inpay chose NordicScreen, because of recommendations from colleagues in the same industry as us. It was very easy to get started and when we ran into problems the support team at NordicScreen was very quick to help us out. Q-Cal is user friendly and easy to set up. It is just what we need to keep track of the availability of our meeting rooms."
