

Digital Signage

Made easy for everyone

Grab, Design, Share – it's that easy to communicate with your audience.

A digital signage solution has endless possibilities and can easily spice up your waiting area, office, hotel lobby, sports arena, canteen, or pizza bar with important information.

Provide customers or colleagues with the right information where they need it and when they need it.

User-Friendly Communication

Whether you want to provide your guests with product videos, your office with dashboards, or display today's meetings in your lobby, a Q-Play Digital Signage solution is the right tool for you.

With the user-friendly online editor, you can design and manage everything from 100 screens worldwide to 1 screen sitting right next to you. All you need to do is grab your information, design it just like you would a PowerPoint, and share it with your preferred audience.

Q-Play Digital Signage – a communication tool with endless possibilities that make communication easy.

Products
